

Broadband Survey for Warren County

Purpose:

This survey is part of Warren County’s Broadband Initiative. We invite all Warren County residents and businesses to complete this survey to help us assess our community’s internet needs. The goal of the initiative is to learn the current extent of broadband service in Warren County and to attract Internet Service Providers to the County that can offer expanded services and higher speed options. **Your address on question 1 is critical so that we can identify the underserved areas of the County.**

Definitions:

Broadband Internet: Broadband is Internet access that is always on faster than traditional dial-up access. Broadband refers to any type of transmission technique that carries several data channels over a common wire. Both DSL and cable modem are common broadband Internet technologies. Other forms of broadband include fiber (FTTH) and fixed wireless. **Mobile:** Mobile broadband is Internet access that uses cellular telephone infrastructure, accessed in conjunction with devices such as smartphones, tablets or air cards for laptops. **Satellite:** Satellite Internet delivers broadband speeds via satellite equipment generally installed on the roof of a home or business, and requires a clear view of the Southern sky.

<p>1) What is your current physical address? <i>(This information will help us work with a vendor to potentially provide a high speed broadband solution in your area; it will not be used for any other purpose or solicitation.)</i></p>
